

National Access Programme

.....National Facilities,
National Access.....

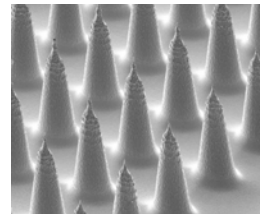

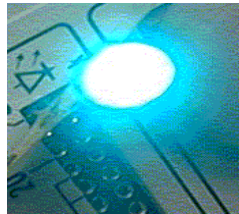

National Access Programme Invitation

Under the National Access Programme, the **Tyndall National Institute** provides access for researchers to **state-of-the-art research facilities & equipment**, funded by Science Foundation Ireland (SFI), with consequent benefits for research quality, innovation & economic competitiveness.

Tyndall has a substantial research infrastructure, valued at over €120M, including several fabrication laboratories (e.g. CMOS, Compound Semiconductor & Microsystems) along with an extensive suite of characterisation, analytical and test laboratories.

**To learn more about the National Access Programme
a presentation will be delivered at the:
Limerick Institute of Technology**

**Monday 19th February 2007 at 1:00pm
Venue: Enterprise Acceleration Centre Boardroom**

Colin McLean is organising this presentation
